

ALIENATION

To have, in order to be alienation,
With faith, unite reason with feeling,
Presto, make a good use of recycling
And maintain a balanced consumption

Wizards of icons and words in the wind
Spread the seduction of the market,
Prolonging without regret or hatred
The tenacious magnicide concealed.

The fragility of the blue planet,
Sustainable progress and equity,
Delirious symphonies suggest these words
About nature and the environment.
Simple paths that lead to dignity
Cross our crowded motorways and main roads.
