

RESILIENCE I

Translation: María Victoria Arbués Gállego

The gaze, resigned,
Will look for the light
Beyond the horizon,

An infinite humility
Will take hold of the mirrors

And tears will flow effortlessly
From the mute pain of the basements

But... we will keep moving forward,
Though the walls beat against our temples
And the story belongs to the victors

“Through the Eternal Dust of the Roads” (2022 -)
